Professional Experience

Accenture

Project: [H&M] Business Analyst

November 2023 – Present

Requirements & Stakeholder Management

- Interacted with **client stakeholders, warehouse teams, logistics vendors**, and internal teams to **gather, document, and refine business requirements**.
- Conducted **requirement analysis and gap analysis** to identify process inefficiencies and system improvement opportunities
- Acted as a liaison between business stakeholders and technical teams, ensuring clarity and alignment.

SDLC & Cross-Functional Collaboration

- Worked closely with Design, Development, QA, and Project Management teams to ensure smooth execution across the SDLC.
- Generated weekly and monthly dashboards/reports using Power BI and Excel to support management decisions.
- Managed requirement changes through change requests and impact analysis.

Project Tracking & Collaboration

- Coordinated with logistics teams, vendors, carriers, and internal stakeholders to resolve high priority issues.
- Conducted weekly client meetings with H&M to present incident summaries, root causes, and improvement actions.
- Supported project tracking using Jira/Confluence for issue logging, documentation, and updates.

Testing & Quality

- Assisted in performing UAT, validating system changes before release.
 - Stream trained in Functional testing. Proficiency in ALM and manual testing.
-
